

# The Path to Your Perfect Pool: A 6-Step Guide

## 1. Discovery & Site Review

We align on your goals, style, and unique property realities like access and drainage.

## 2. Design Development

We create a custom layout and build plan based on how you'll use the pool.

## 3. Permits & Inspections

We coordinate all suburb-specific permits and inspections to keep the project organized.

## 4. Construction

This core phase includes excavation, steel rebar, plumbing, and pouring the concrete shell.

## 5. Finishes & Equipment

We install tile, coping, and the interior finish, and then set up all equipment.

## 6. Startup & Walkthrough

You receive a full orientation to feel confident and ready as a new pool owner.
